

exp.dat

Autogenerated data summary from dataMaid

2023-09-01 16:27:55.545315

Data report overview

The dataset examined has the following dimensions:

Feature	Result
Number of observations	694
Number of variables	155

Checks performed

The following variable checks were performed, depending on the data type of each variable:

	character	factor	labelled	haven labelled	numeric	integer	logical	Date
Identify miscoded missing values	×	×	×	×	×	×		×
Identify prefixed and suffixed whitespace	×	×	×	×				
Identify levels with < 6 obs.	×	×	×	×				
Identify case issues	×	×	×	×				
Identify misclassified numeric or integer variables	×	×	×	×				
Identify outliers					×	×		×

Please note that all numerical values in the following have been rounded to 2 decimals.

Summary table

	Variable class	# unique values	Missing observations	Any problems?
id	integer	694	0.00 %

Variable list

id

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	694
Median	347.5
1st and 3rd quartiles	174.25; 520.75
Min. and max.	1; 694

StartDate

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	384
Mode	"11/06/2018 14:57"

- Note that the following levels have at most five observations: "1/30/2018 16:27", "1/30/2018 16:33", "1/30/2018 16:35", "1/30/2018 16:40", "1/30/2018 16:41", ..., "5/3/2018 14:46", "5/3/2018 15:11", "5/9/2018 16:54", "5/9/2018 16:55", "5/9/2018 17:39" (362 values omitted).

duration

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	577
Median	1601
1st and 3rd quartiles	1368.25; 2551.5
Min. and max.	704; 83740

- Note that the following possible outlier values were detected: "704", "750", "779", "837", "850", ..., "1219", "1220", "1221", "39327", "83740" (56 values omitted).

ResponseId

- The variable is a key (distinct values for each observation).

reemp_offer1

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	" "

- The following suspected missing value codes enter as regular values: "".

reemp_offer2

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	" "

- The following suspected missing value codes enter as regular values: "".

risk

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	6
Mode	“50% chance of receiving 120 ECU and 50% chance of receiving 60 ECU”

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "".

sex

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“Female”

- Note that the following levels have at most five observations: "Other".

age

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	55
Median	30
1st and 3rd quartiles	25; 40
Min. and max.	18; 73

- Note that the following possible outlier values were detected: "18".

race

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	10
Mode	“White”

- Note that the following levels have at most five observations: "American Indian / Alaska Native", "Black/ African/ Caribbean/ Black British", "Native Hawaiian or Other Pacific Islander".

race_other

Feature	Result
Variable type	character
Number of missing obs.	454 (65.42 %)
Number of unique values	11
Mode	“ ”

- The following suspected missing value codes enter as regular values: " ".
- Note that the following levels have at most five observations: "arab", "Bangladeshi", "Brown English", "chinese", "Chinese", "Don't want to say", "Eastern Asian", "Hispanic", "Mediterranean", "Native American".
- Note that there might be case problems with the following levels: "chinese", "Chinese".

area_raised

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	5
Mode	“Suburban”

politics

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	6
Mode	"A moderate amount"

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "".

vote

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	"Yes"

- The following suspected missing value codes enter as regular values: "".

party__vote

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	11
Mode	"Democratic Party"

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "Constitution Party", "United Kingdom Independence Party (UKIP)".

partyid

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	10
Mode	“Democrat”

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "British National Party (BNP)".

educ

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	10
Mode	“College (Undergraduate Degree)”

- Note that the following levels have at most five observations: "Elementary School", "Middle School".

emp

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	7
Mode	“Employed for wages”

htotinc

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	11
Mode	“\$25-50k”

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "".

trust

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	“Most people can be trusted”

race_contact

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	6
Mode	“Daily”

- The following suspected missing value codes enter as regular values: "".
- Note that the following levels have at most five observations: "".

race_friends

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	“Same ethnicity to me”

trade_union

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	“No”

amount_to_pay

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	132
Median	4.8
1st and 3rd quartiles	3.6; 9.28
Min. and max.	1.1; 15.9

- Note that the following possible outlier values were detected: "1.1", "1.2", "1.3", "1.4", "1.5", ..., "2", "2.1", "2.2", "2.3", "2.4" (4 values omitted).

showupfee

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"1"
Reference category	1

RET_earnings_slider

- The variable only takes one (non-missing) value: "75". The variable contains 0 % missing observations.

RET_earnings_digits

- The variable only takes one (non-missing) value: "75". The variable contains 0 % missing observations.

Prob_unemployment_1

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"0.25"
Reference category	0.1

Prob_unemployment_2

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"0.25"
Reference category	0.1

Num_rounds

- The variable only takes one (non-missing) value: "15". The variable contains 0 % missing observations.
-

Treatment

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	6
Median	3
1st and 3rd quartiles	2; 5
Min. and max.	1; 6

task_length

- The variable only takes one (non-missing) value: "62". The variable contains 0 % missing observations.
-

Prob_reemployment__1

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"0.375"
Reference category	0.375

Prob_reemployment__2

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"0.375"
Reference category	0.375

roundannouncelength

- The variable only takes one (non-missing) value: "5". The variable contains 0 % missing observations.

roundsummarylength

- The variable only takes one (non-missing) value: "10". The variable contains 0 % missing observations.

roundtopay1

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	15
Median	8
1st and 3rd quartiles	4; 12
Min. and max.	1; 15

roundtopay2

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	15
Median	8
1st and 3rd quartiles	4; 11
Min. and max.	1; 15

roundtopay3

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	15
Median	8
1st and 3rd quartiles	4; 12
Min. and max.	1; 15

egoutcome

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	“1”
Reference category	1

temp2

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	14
Median	7
1st and 3rd quartiles	4; 11
Min. and max.	1; 14

temp3

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	13
Median	7
1st and 3rd quartiles	4; 10
Min. and max.	1; 13

ecupergbp

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"600"
Reference category	300

endowment

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	"1000"
Reference category	1000

skill_multiplier

- The variable only takes one (non-missing) value: "2". The variable contains 0 % missing observations.
-

lastemployedpay

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	37
Median	975
1st and 3rd quartiles	600; 1800
Min. and max.	0; 4050

- Note that the following possible outlier values were detected: "0".
-

perf1

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	26
Median	10
1st and 3rd quartiles	0; 15
Min. and max.	0; 25

perf2

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	26
Median	11
1st and 3rd quartiles	4.25; 15
Min. and max.	0; 26

- Note that the following possible outlier values were detected: "22", "23", "24", "26".
-

perf3

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	27
Median	11
1st and 3rd quartiles	0; 15
Min. and max.	0; 39

- Note that the following possible outlier values were detected: "25", "39".
-

payamt1

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	66
Median	1012.5
1st and 3rd quartiles	525; 1950
Min. and max.	0; 3750

payamt2

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	64
Median	1050
1st and 3rd quartiles	571.88; 1950
Min. and max.	0; 4387.5

payamt3

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	65
Median	975
1st and 3rd quartiles	534.38; 1912.5
Min. and max.	0; 5850

paygamble

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	10
Median	80
1st and 3rd quartiles	40; 120
Min. and max.	0; 240

- Note that the following possible outlier values were detected: "0".

gambleout

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"Low"

ecusubtotal

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	454
Median	1843.75
1st and 3rd quartiles	1272.5; 2280
Min. and max.	60; 3937.5

- Note that the following possible outlier values were detected: "3440", "3450", "3550", "3720", "3740", "3760", "3937.5".

gbpsubtotal

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	233
Median	3.7
1st and 3rd quartiles	2.6; 5.34
Min. and max.	0.1; 11.83

- Note that the following possible outlier values were detected: "0.1", "0.2", "0.3", "0.4", "0.49", "0.5", "0.6", "0.7", "0.8".

wasemployed1

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“Slider task”

wasemployed2

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“Slider task”

wasemployed3

Feature	Result
Variable type	character
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“Slider task”

payamtavg

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	213
Median	1050
1st and 3rd quartiles	650; 1700
Min. and max.	0; 3937.5

- Note that the following possible outlier values were detected: "0", "25", "50".
-

insurance

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“0”
Reference category	0

unemp_display

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	“25”
Reference category	10

insur_display

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	3
Mode	“0”
Reference category	0

reemp_display

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	numeric
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"37.5"
Reference category	37.5

invertodds

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"4"
Reference category	4

showA

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"0"
Reference category	0

- Note that the following levels have at most five observations: "1".

showB

- Note that this variable is treated as a factor variable below, as it only takes a few unique values.

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	2
Mode	"1"
Reference category	0

- Note that the following levels have at most five observations: "0".

start_r1

- The variable only takes one (non-missing) value: "0". The variable contains 0 % missing observations.

show_r1

- The variable only takes one (non-missing) value: "0". The variable contains 0 % missing observations.

total_correct

Feature	Result
Variable type	integer
Number of missing obs.	0 (0 %)
Number of unique values	26
Median	10
1st and 3rd quartiles	0; 14
Min. and max.	0; 26

- Note that the following possible outlier values were detected: "25", "26".

skills_improved
